Other Personalized Settings	12	RADIO PRESETS <i>Store up to 18 broadcast radio stations in AM/FM band, and 12 XM® Satellite Radio channels in the preset (1-6) buttons.</i> NOTE: Functions that rely on a satellite signal, such as XM® Satellite Radio, will not operate in Alaska or Hawaii. To store a station: (1) Use the tune, seek, or scan function to tune the radio to a desired station. (2) Pick a preset number button (1-6). (3) Hold it until you hear a beep. AM FM1 FM2 XM1 XM2		
	13	NAVIGATION SYSTEM - HOME ADDRESS <i>(For TL with Navigation Trim).</i> NOTE: The Navigation System will not operate in Alaska. (1) Instruct your customer on how to enter a destination address. (2) Help your customer set up the "Go Home" (customer address) in the system. (3) Explain voice activation and have your customer enter another destination. (4) Show the location of the microphone and explain the importance of speaking in a normal tone of voice. (5) Show customer the location of the "NAVI TALK" button on the steering wheel. (6) Show customer the location of the "NAVI BACK" button on the steering wheel. (7) Show customer the Commonly Used Voice Commands in the Quick Start Guide.		
	14	Bluetooth® HandsFreeLink® (BHFL) <i>To confirm that the Customer's cell phone is compatible with Bluetooth® HandsFreeLink® AND to view/confirm phone pairing information:</i> (1) Go to: www.acura.com/handsfreelink - or - Call: Bluetooth® HandsFreeLink® customer support at (888) 528-7876. NOTE: To use Bluetooth® HandsFreeLink®, the phone must have approved Bluetooth® capability, along with the Hands Free Profile. (2) Pair the customer's phone at this time. - To pair the phone, get the pairing instructions from: www.acura.com/handsfreelink - Then go to the vehicle and pair the phone according to those instructions - After you have finished pairing the phone, a message will appear on the Navi screen, asking if you wish to continue by setting up AcuraLink. Finish this section first. (3) Reconfirm phone linkage To reconfirm phone linkage, do the following: - Turn off the phone and turn off the engine - Turn the phone on again and restart the engine (4) Show the customer the location of the "BHFL TALK" button on the steering wheel. (5) Show the customer the location of the "BHFL BACK" button on the steering wheel. (6) Confirm that the customer can successfully place a test call. NOTE: Command must begin with "Call" or "Dial" - followed by the telephone number. (7) Confirm that the customer can successfully receive a test call.		
	15	AcuraLink <i>Provides direct communication between the vehicle and the Acura Server. It works through XM® Satellite Radio, and in conjunction with the vehicle's navigation, Bluetooth® HandsFreeLink®, and audio systems to send and receive several kinds of messages.</i> AcuraLink works ONLY in TL vehicles that are equipped with Navigation System. (Except Alaska and Hawaii). (1) Ask the Customer if their cell phone has modem capability (also known as Bluetooth® Dial-Up Network Profile). (NOTE: Modem capability is not usually provided in a basic contract. Cell phone providers charge extra for that option). (2) If the Customer's cell phone does not have modem capability, disregard this section. (3) If the Customer's cell phone does have modem capability, confirm that the phone has already been paired. (4) Then with the customer present, go to the Owner Link website at www.owners.acura.com (5) Choose the information the customer wishes to receive.
